

UMF and Subsea UK Umbilicals Conference 2019

The UMF and Subsea UK inaugural Umbilicals Conference was held in Aberdeen on the 21st November 2019. Delegates discussed a wide range of topics including safety considerations, deepwater challenges, current IWOCS issues, umbilical life extension, power umbilicals, installation solutions, views from operators, installers, suppliers and of course, umbilical manufacturers.

With presentations from UMF's Adam Fellows, Trelleborg Offshore, Fibron, Aker and Equinor, delegates benefited from an event packed with value and specialist insight.

The event was kindly sponsored by C-Kore and Hydrasun.
